- 3-Statement Modelling & DCF
- Data Visualization & Storytelling
- M&A Due Diligence Support

— PROFESSIONAL EXPERIENCE

HAMILTON AQUATICS GROUP

Dubai, UAE · Nov 2022 – Present

Diversified multi-entity group operating across the UAE, Qatar and KSA.

Promoted from General Accountant to Financial Analyst based on contributions to reporting automation, business intelligence, management reporting, and financial performance analysis.

- **Financial Analyst** — **Nov 2024 – Present**
  - **Multi-Entity Financial Analysis:** Lead financial analysis across 8 entities in the UAE, Qatar and KSA, evaluating revenue, profitability, cash flow and operational drivers across multiple business models to support performance management and decision-making.
  - **Budgeting, Forecasting & Variance Analysis:** Manage annual budgeting, rolling forecasts and monthly budget vs actual analysis, investigating financial and operational drivers to identify performance gaps, risks and opportunities and inform corrective actions.
  - **Management Reporting & Business Partnering:** Deliver weekly and monthly management reports covering financial performance, KPIs and variances, partnering with business leaders to support decision-making, performance improvement and strategic initiatives.
  - **Power BI & Reporting Automation:** Replaced manual Excel-based reporting with automated Power BI dashboards, reducing monthly reporting time by 85% and improving visibility into financial and operational performance.
  - **Financial Modelling & Revenue-Share Analysis:** Prepare monthly revenue-share and commission calculations for external partners and develop driver-based scenario and sensitivity models, reducing reforecasting turnaround from days to hours.
  - **Cross-Border Finance Coordination:** Coordinate with finance teams across the UAE, Qatar and KSA on financial reporting, intercompany reconciliations, month-end close and external audit requirements, supporting consistent reporting and timely resolution of cross-entity issues.
  - **Finance Transformation & M&A Support:** Implemented Python-based automation to shorten the month-end closing cycle by two days; contributed to buy-side financial due diligence for successful acquisitions.

- **General Accountant** **Nov 2022 – Oct 2024**
  - **Multi-Entity Accounting:** Managed full-cycle AP, AR and GL processes in Microsoft Dynamics 365 and Zoho, including invoicing, collections and intercompany reconciliations supporting IFRS-compliant reporting.
  - **Financial Controls & Audit Coordination:** Contributed to zero material audit findings through disciplined bank reconciliations, post-dated cheque (PDC) monitoring, petty cash controls, VAT-compliant refunds and credit note processing, and external-auditor coordination.
  - **Management Reporting:** Prepared monthly management accounts, variance analysis and reporting packs, supporting leadership reviews, performance monitoring and business decision-making.
  - **Working Capital Analysis:** Performed working capital analysis and monitored overdue exposures, providing recommendations that supported liquidity planning, cash flow management and collection strategies.
  - **Process Improvement:** Automated recurring financial reporting and data consolidation using Excel, Power Query and Power Pivot, improving reporting accuracy and reducing manual effort across finance processes.

AH ACCOUNTANTS

Four years in external audit, delivering statutory audits and financial statement reviews across a diverse, multi-industry client portfolio.

- **Audit Associate** **Mar 2018 – May 2022**
  - **Financial Statement Analysis:** Analysed financial statements, account balances and supporting records across multiple industries, identifying unusual movements, reporting inconsistencies and potential misstatements.
  - **Variance Investigation:** Investigated account movements through substantive testing and analytical procedures, evaluating balances against underlying transactions and business activity to identify discrepancies and their causes.
  - **Risk Assessment & Audit Planning:** Supported audit planning through risk assessments, materiality calculations and identification of significant accounts and higher-risk transactions.
  - **Internal Controls & Advisory:** Evaluated accounting processes and internal controls, identified control weaknesses and communicated practical recommendations to improve financial reporting and control effectiveness.
  - **Audit Delivery & Client Coordination:** Executed audit procedures, prepared working papers and liaised with clients to resolve accounting matters, obtain supporting evidence and meet audit deadlines.
